Dear Dean:

You recently asked me for an assessment of the effect of weather on military operations in Southeast Asia.

I think you will find the attached OCI memorandum of interest. I call your particular attention to numbered paragraph 6, relating to the movement of truck traffic on the supply routes in Laos during the rainy season last year and the year before.

A copy of this report is being sent to Secretary McNamara, McGeorge Bundy and William Bundy.

Sincerely,

/s/  
John A. McCone
